Games, Games, Games!

AUSTIN, TX— Finally, someone did it right. They put all the greatest computer games around today on a single CD ROM, and priced it so all us regular people could afford it.

This new CD ROM, called **Greatest Computer Games** provides you with a complete library of the most fun, addictive, and impressive computer games around. This CD is packed with over 900 shareware games, including the top ten games in each of seven different categories:

All the Best . . .

Greatest Computer Games CD is a gold mine for gamers and for the rest of us who occasionally need something to keep the kids or grandkids occupied. No matter what your gaming interest or age group, there is something for you on this CD.

Of course there's all the classics, such as Pac Man, Space Invaders, Asteroids, and variations on Star Trek, but it doesn't stop there. No way.

This CD also has the very latest in amazing 3D action adventure games, including . . .

- | | |
|---------------------|-------------------|
| ◆ Duke Nukem 3D | ◆ Mech Warrior |
| ◆ DOOM | ◆ Wolfenstein 3D |
| ◆ Descent | ◆ Lemmings |
| ◆ Heretic | ◆ Extreme Pinball |
| ◆ Terminal Velocity | ◆ One Must Fall |
| ◆ Dark Forces | ◆ Nightmare 3D |

Clearly, this CD has all the most wanted game titles. And, in addition to the 12 listed above, there's 900 more great shareware games on this CD!

Hey, It's Easy to Use, Too!

We tried the **Greatest Computer Games CD ROM** and were pleasantly surprised. It is so easy to use even the computer virgins in our office could run it!

The CD runs smoothly in Windows and Windows 95, and starts simply by clicking on its icon. As soon as it starts, you see a menu of interesting various game categories. To pick a game category, you simply highlight your choice and click.

Then you see a description of all the great games available in the category you chose. To play any of these games, you simply highlight the game, and click the copy button. This puts the game on your computer, ready to play.

It Really Works!

We decided we wanted to see the awesome new Duke Nukem 3D action adventure game, we simply highlighted the program name on the main menu, and selected the "Copy" option.

Immediately, the game was transferred to our computer, ready to play! Our verdict... **Greatest Computer Games CD** is great! It is very easy to use, and a whole lot of fun!!!

Oh, yeah . . . did I mention that this CD is affordable? With a suggested retail price of \$39.95, this CD ROM is a real bargain.

Any one with a computer and a CD ROM drive should get this CD!

Power Tools for the Internet!

AUSTIN, TX— For the million of Internet users trying to create their own Internet web pages and storefronts . . . your ship has just come in! A new CD ROM provides the tools you need to make your life on the Internet easy.

This new CD ROM, **Internet Power Tools**, gives you a complete library of software tools making it easy for anyone to master the Internet. The CD includes:

- ♦ Internet Tutorials
- ♦ Internet Access Tools
- ♦ Web Page Creation Tutorials
- ♦ Web Page Creation Tools
- ♦ E-Mail Processors
- ♦ News Group Tools
- ♦ Image Reading Tools
- ♦ Automated Retrieval Tools
- ♦ and much more!

The CD is packed with some of the top rated tools for using and creating web pages for the Internet.

A Must-Have Business Resource!

The **Internet Power Tools CD** makes it easy for business owners and entrepreneurs to put their business storefronts up on the internet. The wide range of tools on the CD make finding the right tool for a specific need easy.

Of course, most people won't use all the software solutions provided on the CD, but they will probably find just the one they need . . . whether it be an automatic news reader and picture viewer, or full featured web page creator for building a business presence on the internet, it can be found on this CD ROM.

Easy to Use!

We tried the **Internet Power Tools CD ROM** and were pleasantly surprised. It is so easy to use even the computer *virgins* in our office could run it!

The CD runs smoothly in Windows and Windows 95, and starts simply by clicking on its icon.

It Really Works!

Throwing caution to the wind, we decided to try out one of the top-rated Web page creation tools we found listed on the CD ROM. To do this, we simply highlighted the program name on the main menu, and selected the "Copy" option.

Immediately, the program we wanted was transferred to our computer, ready to test out! We exited the CD, and tried out the program. It only took a few minutes to set up, and then using this powerful tool, we were able to create a respectable looking Web Page in under a half hour.

Our verdict... the **Internet Power Tools CD** actually works, is very easy to use, and a valuable business resource.

Even Better . . . It's Affordable!

One of the best things we liked about the Internet Power Tools CD is its price. With a suggested retail price of \$49.95, this CD ROM is a real bargain.

Any one using the internet should add this one to their software library.
